

Hollandse Hoogtes – Cultivation assistant

What you will be doing

We are currently in a growth phase, which means you will have plenty of opportunities to learn and contribute to building a new, professional cultivation environment. Experience working in a greenhouse is a plus; an interest in plants and cultivation is essential.

- You will work with different varieties of cannabis plants.
- You will care for mother plants, take and inspect cuttings, transplant plants, carry out crop maintenance and support the harvesting process.
- You will keep your work area clean and work according to established hygiene and quality standards.

You will work as part of a dedicated team of cultivation employees and supervisors, where we set high standards and continuously work together to improve the cultivation process.

The working day starts at 08:00 and ends at 16:30. Weekend work is required occasionally.

What do we expect from you?

- You have an interest in plants and don't mind being on your feet and walking a lot.
- You speak English; Dutch is a plus.
- You are accurate, motivated and take your work seriously.
- Experience is a plus, but your motivation and attitude are more important.
- You are flexible and willing to work weekends when needed.

To support a healthy work-life balance, we are looking for candidates who live within a 50 km radius of Bommel.

- A full-time position (40 hours per week)
- A market-competitive salary based on your knowledge and experience
- 25 vacation days, 8% holiday allowance and a pension scheme
- Travel allowance of €0,25 per km (maximum 50 km one way)
- A new working environment in an emerging and regulated market
- Plenty of opportunities to grow, learn and contribute to making history

If you have any questions, please contact Corporate Recruiter Femke at sollicitaties@hollandsehoogtes.nl.

For this position, a Certificate of Conduct (VOG) is required and we will contact references.

Please note that we kindly ask recruitment agencies not to contact us regarding this vacancy.
